

# HIGH STEEL STRUCTURES LLC

An Affiliate of High Industries Inc.

**MAKING CONNECTIONS** 

SteelDays 2023
October 17–20

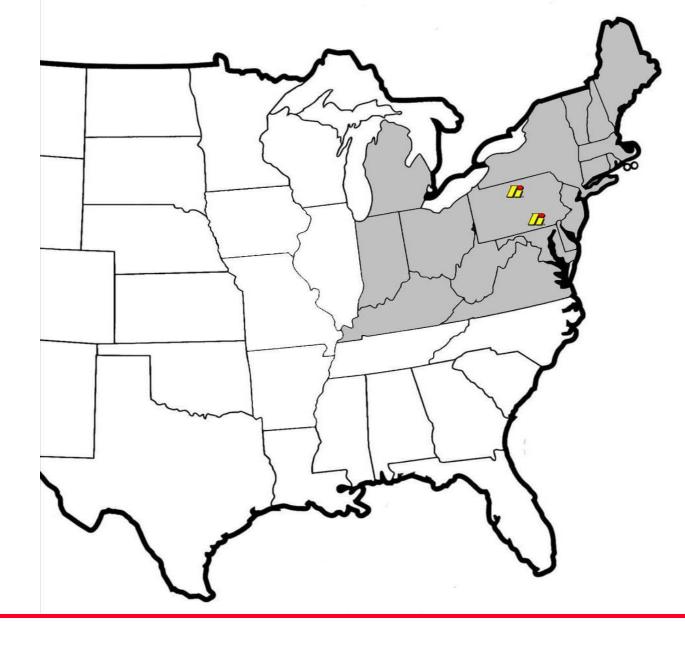

#### **High Steel Structures LLC**

Fabricator member with Advanced Bridge Fabrication Certification.

High Structural Erectors LLC
Certified Erector

Two locations.

Lancaster Williamsport

18 State market area.

50,000 Tons / year

500,000 MHs / year

Lancaster, PA Plant 1 Facility

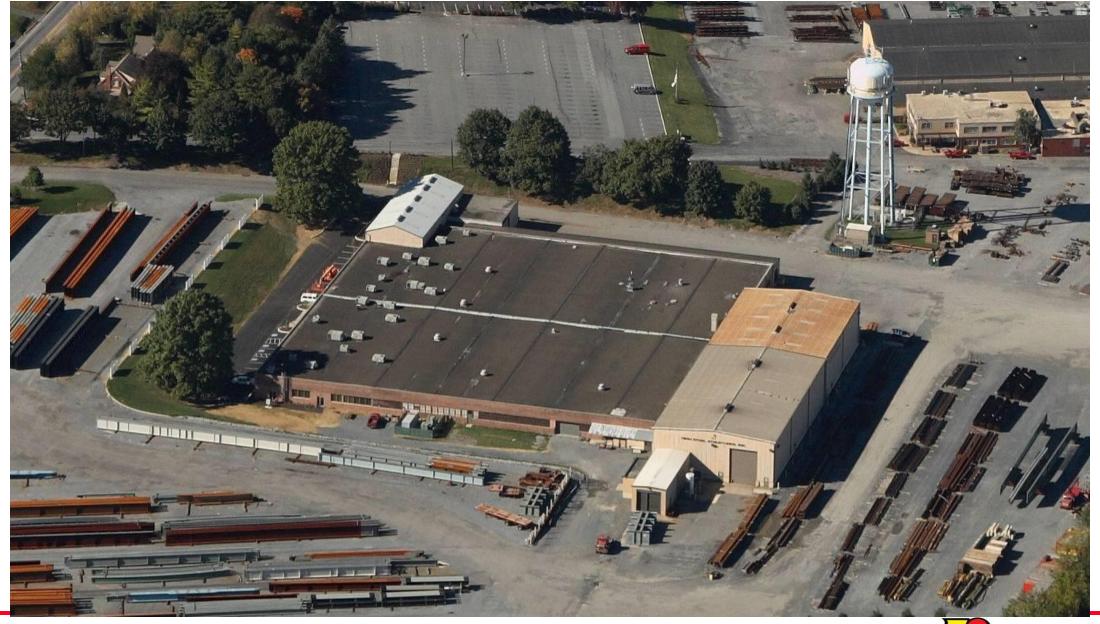

Lancaster, PA Plant 4 facility

#### This is How It's Made.

Fabrication – Receipt of plate material from Mill

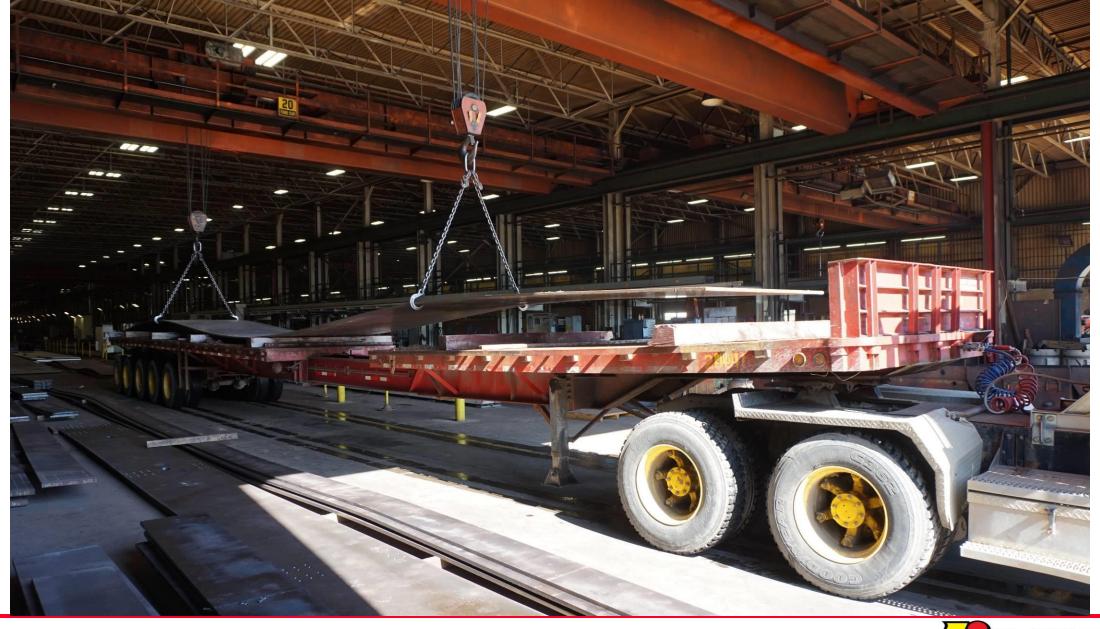

Fabrication - Handling of plate material

Fabrication - Stacking of plates

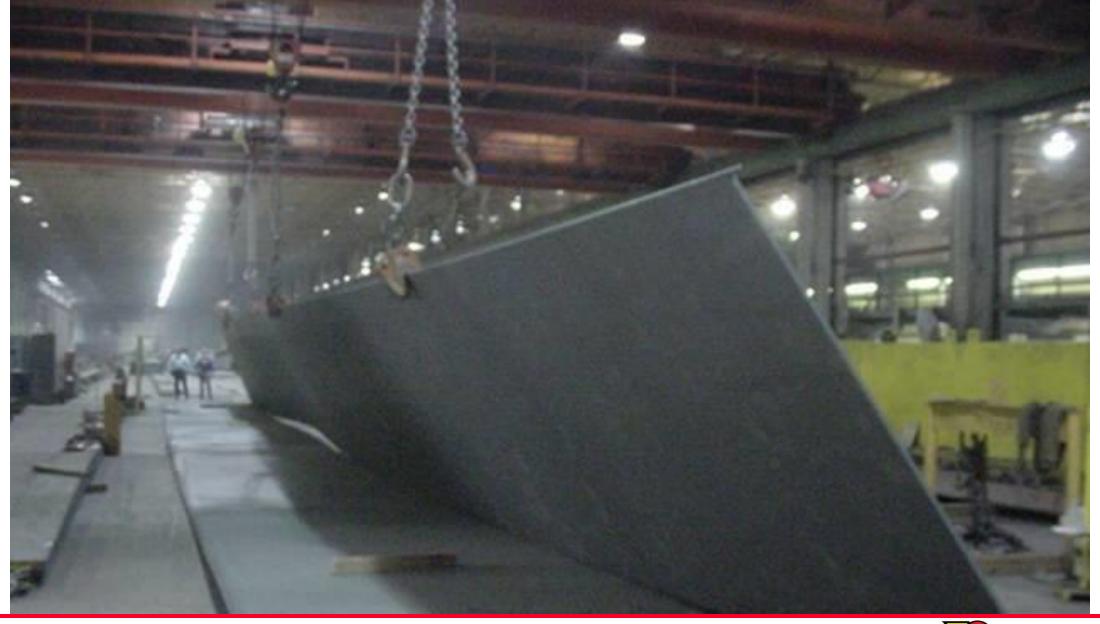

Fabrication - Hauling Plate into production bay

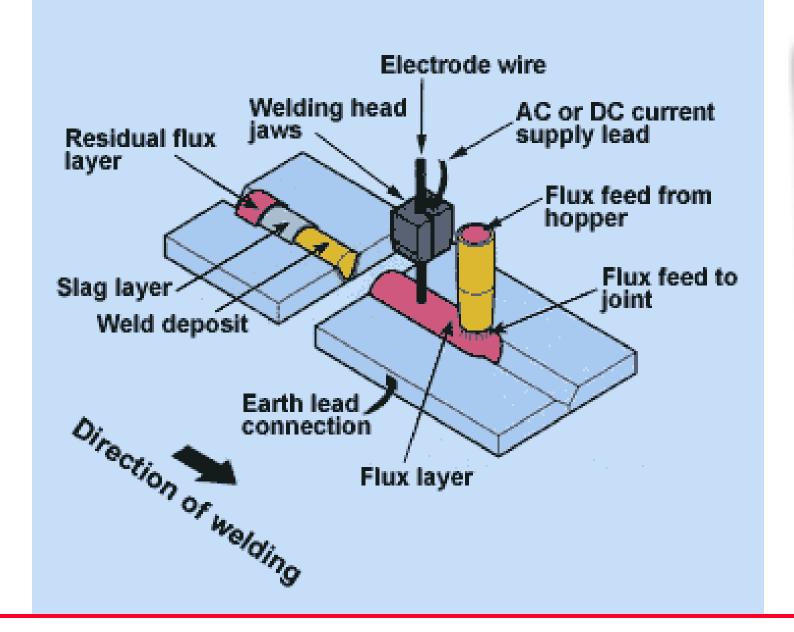

Fabrication - Burn Table

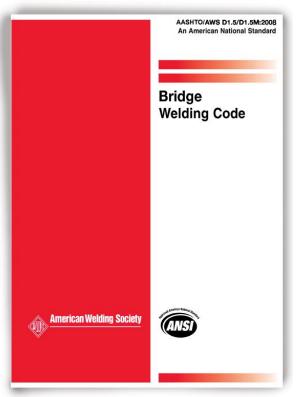

Fabrication - Moving Slabs to Build Area

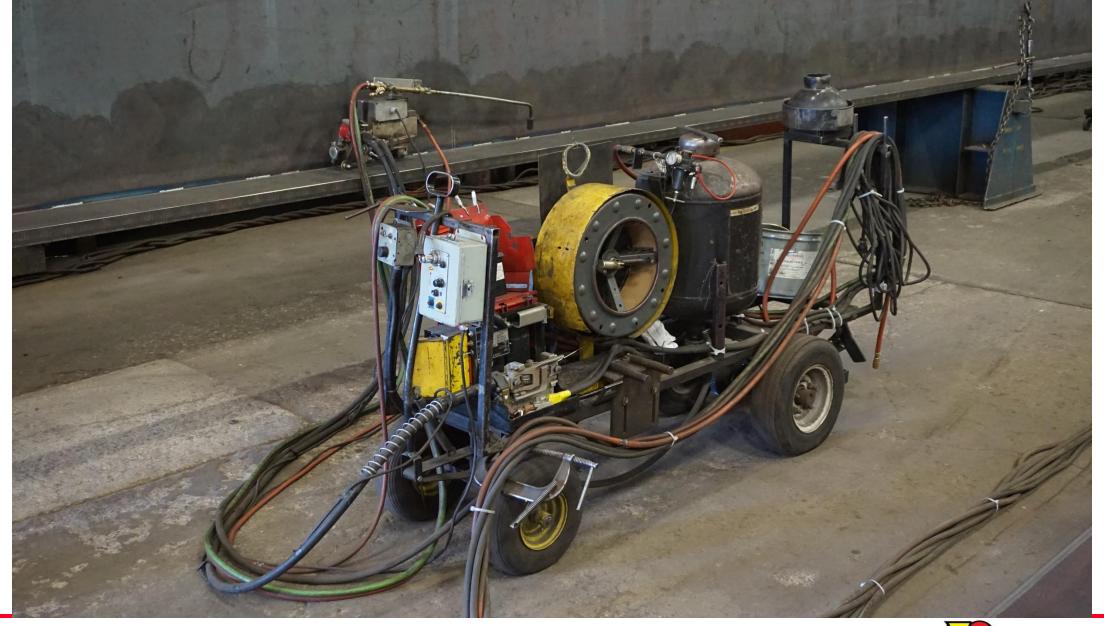

AASHTO/AWS D1.5

Fabrication - Submerged Arc Welding (SAW)

Fabrication - Submerged Arc Welding (SAW)

Fabrication – Welding of Girder (Semi-Automated)

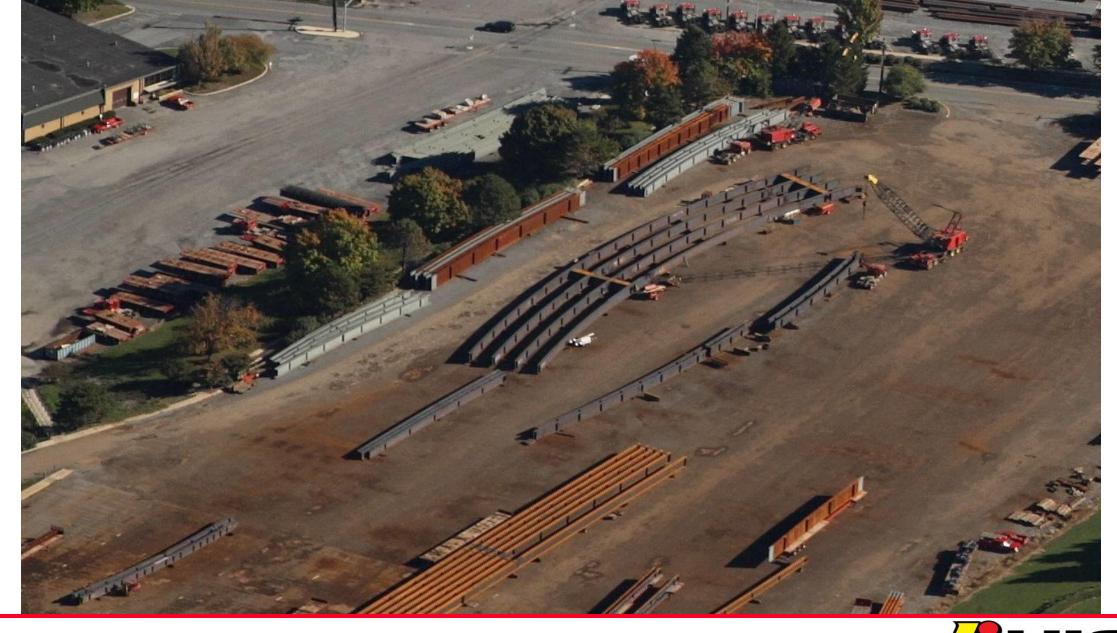

Fabrication - Finishing

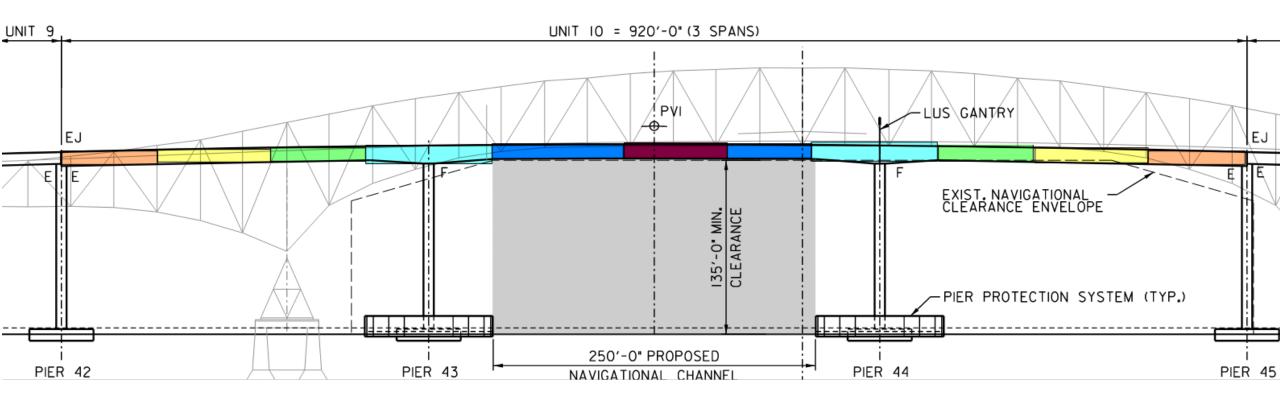

Shop Assembly: Girder-to-Girder connection

Shop Assembly: Girder-to-Girder connection

STEEL STRUCTURES LLC An Affiliate of High Industries Inc.

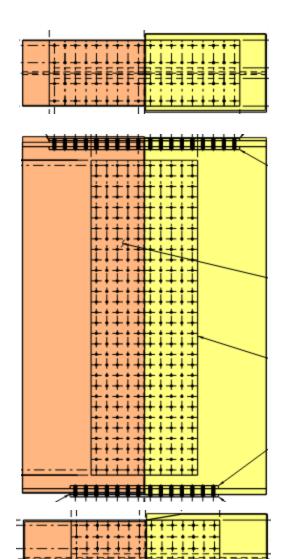

Nice-Mid. bridge has 66 steel girders total. 5,520 LF of girders.

Average girder length = 84'. Heaviest girder weight = 110,000 Lbs.

#### Shop Assembly: Nice-Mid. Bridge

#### **Top Flange – 72 holes**

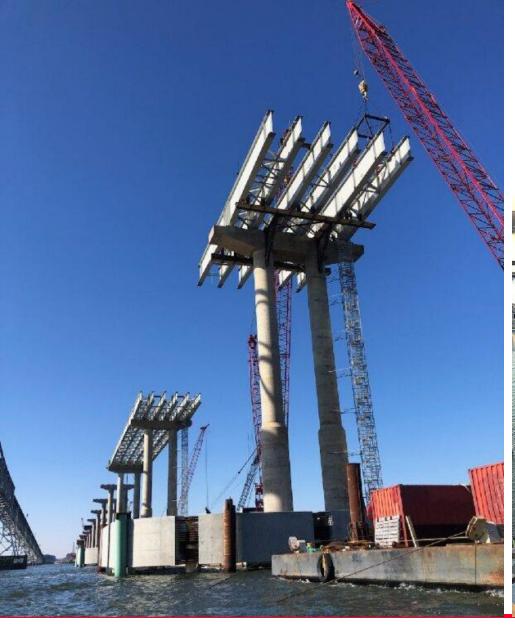

Web – 150 holes

Over 300 holes to check fit per bolted splice

**Bolted Splice (60 Total)** 

Why Check Fit Holes?

Use of *Numerically Controlled Drilling* (NCD) for holes at girder splices. We still have to check hole location accuracy.

Standard (Spec) Check-fit 100% of girders (60 bolted splices). Lots of time at shop to load, move outside, assemble and check fit ~ 18,000 holes.

**Proposed** Limited Check fit 18% of girders (8 bolted splices) using NCD. Saved 2 months at shop.

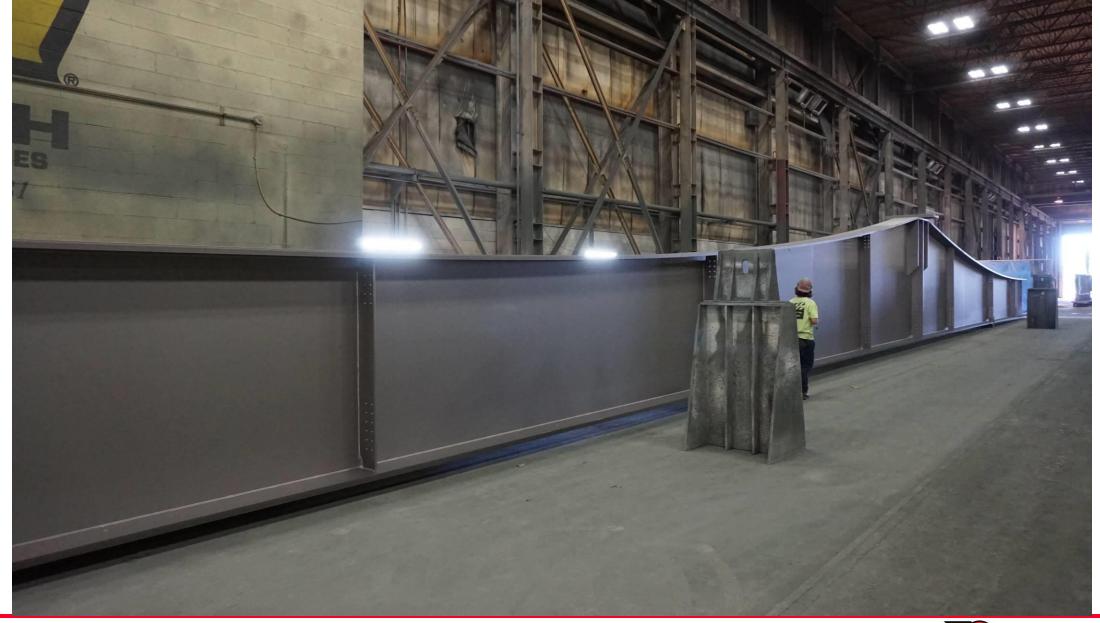

It fits!!

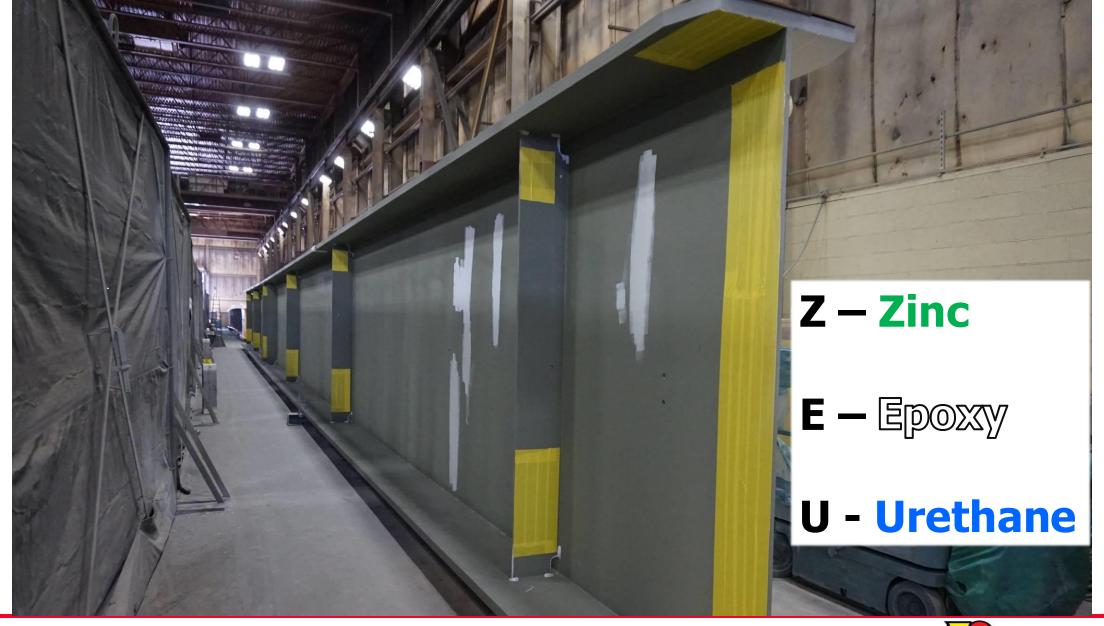

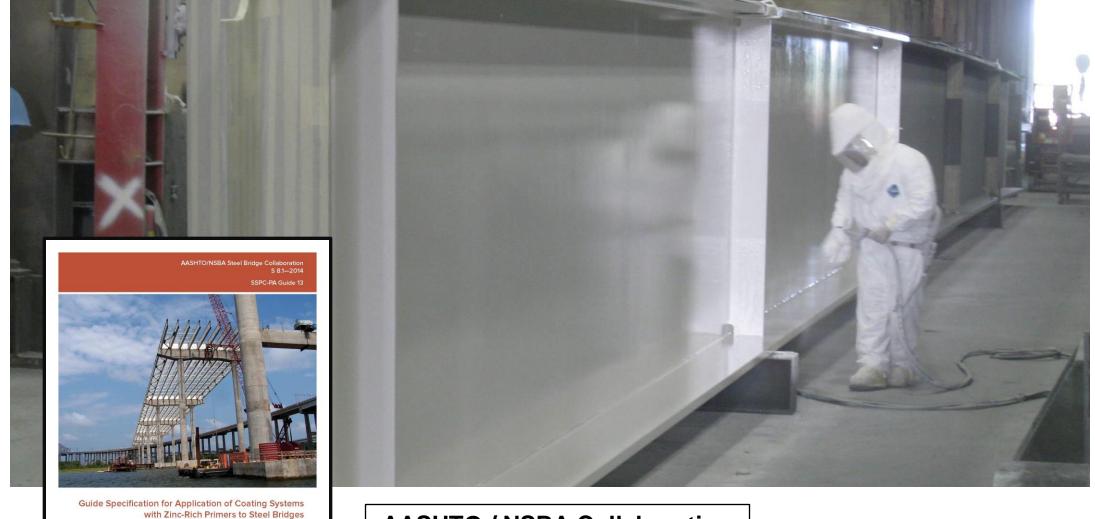

Painting – Standard 3 Coat ZEU system.

AASHTO / NSBA Collaboration S8.1 Guide Specification for Application of Coating Systems

AASHTO/NSBA Steel Bridge Collaboration SSPC: The Society for Protective Coatings

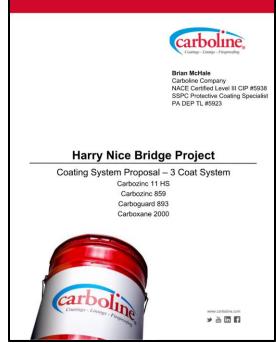

MDTA required DB Team to achieve at least a 33 year minimum service life for coatings.

NACE guide — Standard 3-coat systems offer 20 years of protection.

Carbozinc 11-HS — Inorganic Zinc Coat
Carboguard 893 — Epoxy Intermediate Coat

**Carboxane 2000 – Ultra Durable Urethane Top Coat** 

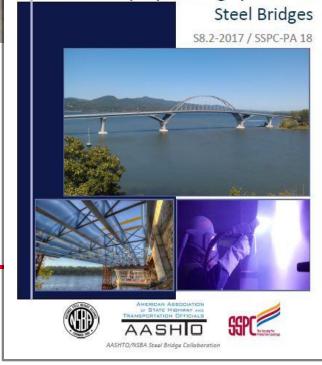

### AASHTO/NSBA Collaboration

S8.2 - "Specification for Application of Thermal Spray Coating Systems"

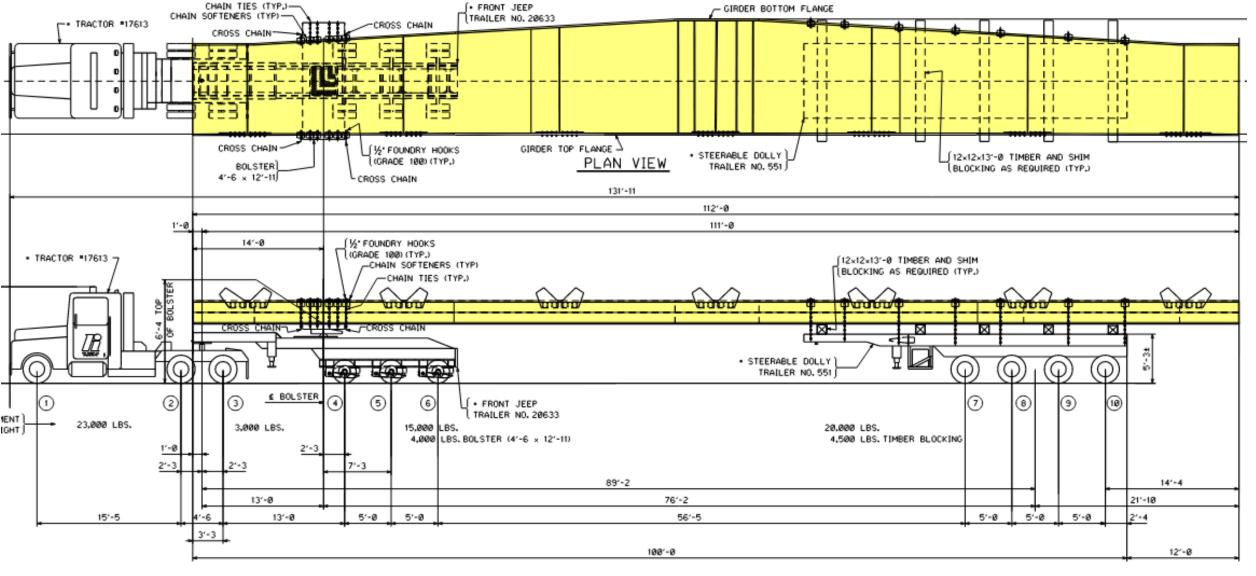

Common to out source Hot Dip galvanizing. Limitations in size of girders that can be dipped.

**Girder: 110,000 Lbs, 112' long. Overall length = 132'.** 

## Nice-Mid. Bridge Shipping Configuration
